PROFESSIONAL EXPERIENCE

Senior UI Developer

INTO3.ai | Jan 2026 – Present.

PROJECT EXPERIENCE

➢ *INTO3.AI*

- Built a responsive user dashboard by converting Figma designs into React.js components.
- Developed reusable and scalable UI components using modern frontend practices.
- Implemented mobile-first layouts ensuring cross-device and cross-browser compatibility.
- Integrated APIs with UI for dynamic data rendering and smooth user interaction.
- Optimized UI performance and fixed layout and rendering issues.
- Collaborated with designers and backend teams to deliver production-ready UI.

Senior UI Developer

ITH Technologies Pvt Ltd
Nov 2017 – Jul 2025

- Converted **Figma designs into responsive, production-ready UI** using **React, Angular, and Next.js Vue Js.**
- Built **scalable and reusable UI components** aligned with modern design systems.
- Ensured **pixel-perfect layouts**, cross-browser compatibility, and **mobile-first responsiveness**.
- Collaborated closely with **designers, backend developers, and product teams** to deliver high-quality UI.
- Optimized UI performance through clean HTML, CSS, and JavaScript best practices.

Key Achievements

- Led a **complete UI redesign** of the company portal, improving usability, accessibility, and responsiveness.
- Reduced development time by **30–40%** by creating reusable UI components.
- Improved **page load speed and UI responsiveness** through performance optimization.
- Established **consistent UI standards and design systems** across multiple applications.
- Delivered **WCAG-compliant**, cross-device and cross-browser user interfaces.
- Designed marketing assets (banners, newsletters, infographics) to enhance brand engagement.

PROJECT EXPERIENCE

➢ *TDX*

- Converted Figma designs into a **fully responsive User Dashboard UI** using **Next.js**.
- Delivered production-ready UI with modern frontend best practices.

➢ Bizthon – Corporate Website & User Dashboard

- Developed landing pages and dashboards using **React.js & Tailwind CSS**.
- Integrated APIs and improved UX for high-traffic user flows.

➢ Trade Dog

- Designed and developed **responsive UI** for web and dashboard applications.
- Converted Figma designs into **Angular-based pixel-perfect UI**.
- Built **Login & User Dashboard modules** with reusable components.
- Ensured accessibility, performance, and cross-browser compatibility.

➢ TDMM (Trading & Crypto Platform)

- Built reusable UI components aligned with design systems.
- Enhanced UI interactivity using **JavaScript & jQuery**.

➢ Aiofans Marketplace

- Developed dynamic UI using **Angular + REST APIs**.
- Ensured seamless mobile responsiveness and optimized loading speed.

➢ TD Ventures

- Built a clean, SEO-friendly corporate website using **HTML, CSS, Bootstrap**.

➢ IIYM

- **Designed and developed static pages using** WordPress & Custom CSS**.**

➢ Recru.in – Hiring Platform

- Implemented website and dashboard UI using **React & Bootstrap**.
- Improved onboarding UX in collaboration with product designers.

➢ Crypto Bulls

- Designed UI for crypto banking and wallet features with focus on clarity and responsiveness.

➢ **MassDeFi**

- Built responsive UI screens and optimized load time through clean code practices.
