-

## **PROFESSIONAL EXPERIENCE**

### **Senior UI Developer**

#### **ITH Technologies Pvt Ltd**

Nov 2017 – Jul 2025

- Converted **Figma designs into responsive, production-ready UI** using **React, Angular, and Next.js** **Vue Js**.
- Built **scalable and reusable UI components** aligned with modern design systems.
- Ensured **pixel-perfect layouts**, cross-browser compatibility, and **mobile-first responsiveness**.
- Collaborated closely with **designers, backend developers, and product teams** to deliver high-quality UI.
- Optimized UI performance through clean HTML, CSS, and JavaScript best practices.

## **Key Achievements**

- Led a **complete UI redesign** of the company portal, improving usability, accessibility, and responsiveness.
- Reduced development time by **30–40%** by creating reusable UI components.
- Improved **page load speed and UI responsiveness** through performance optimization.
- Established **consistent UI standards and design systems** across multiple applications.
- Delivered **WCAG-compliant**, cross-device and cross-browser user interfaces.
- Designed marketing assets (banners, newsletters, infographics) to enhance brand engagement.

---

## **PROJECT EXPERIENCE**

### ➤ **TDX**

- Converted Figma designs into a **fully responsive User Dashboard UI** using **Next.js**.
- Delivered production-ready UI with modern frontend best practices.

### ➤ **Bizthon – Corporate Website & User Dashboard**

- Developed landing pages and dashboards using **React.js & Tailwind CSS**.
- Integrated APIs and improved UX for high-traffic user flows.

### ➤ **Trade Dog**

- Designed and developed **responsive UI** for web and dashboard applications.
- Converted Figma designs into **Angular-based pixel-perfect UI**.
- Built **Login & User Dashboard modules** with reusable components.
- Ensured accessibility, performance, and cross-browser compatibility.

➤ **TDMM (Trading & Crypto Platform)**

- Built reusable UI components aligned with design systems.
- Enhanced UI interactivity using **JavaScript & jQuery**.

➤ **Aiofans Marketplace**

- Developed dynamic UI using **Angular + REST APIs**.
- Ensured seamless mobile responsiveness and optimized loading speed.

➤ **TD Ventures**

- Built a clean, SEO-friendly corporate website using **HTML, CSS, Bootstrap**.

➤ **IIFYM**

- Designed and developed static pages using WordPress & Custom CSS.

➤ **Recru.in – Hiring Platform**

- Implemented website and dashboard UI using **React & Bootstrap**.
- Improved onboarding UX in collaboration with product designers.

➤ **Crypto Bulls**

- Designed UI for crypto banking and wallet features with focus on clarity and responsiveness.

➤ **MassDeFi**

- Built responsive UI screens and optimized load time through clean code practices.
