PROFESSIONAL SUMMARY

Senior UI Frontend Developer with 9+ years of experience specializing in React.js, Next.js, Angular, and modern frontend architecture. Strong expertise in building scalable enterprise applications, converting Figma designs into pixel-perfect responsive interfaces, and developing reusable design systems for high-performance web applications. Experienced in performance optimization, REST API integration, component-driven architecture, accessibility standards, cross-browser compatibility, and mobile-first development. Successfully delivered enterprise-level platforms across FinTech, Crypto, SaaS, Marketplace, Blockchain, and Business applications while collaborating closely with product, design, and backend engineering teams in Agile environments.
